ANNOUNCEMENT

INSIDE INFORMATION

This announcement is made by China BlueChemical Ltd. (the “**Company**”, together with its subsidiaries, the “**Group**”) pursuant to Rule 13.09 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited and Inside Information Provisions under Part XIVA of the Securities and Futures Ordinance (Cap. 571 of the Laws of Hong Kong).

The Group’s Fudao Phase II urea plant located in Dongfang City, Hainan Province of the PRC (“**Fudao Phase II**”) conducted a scheduled maintenance on 7 April 2016 and detected a leakage caused by interior corrosion of the high pressure carbamate pool condenser (the “**Condenser**”) during the maintenance. According to the preliminary repair schedule jointly determined with the equipment supplier, the Board expects at this stage that Fudao Phase II may resume production on or around 1 August 2016. The Board estimates that the suspension would result in a loss of production volume of approximately 270,000 tonnes of urea and will have an adverse financial impact on the Company.

The Company will follow up with the repair progress of the Condenser and will make further announcement(s) if and when appropriate.

Shareholders and potential investors of the Company are advised to be aware of investment risk.

By order of the Board
China BlueChemical Ltd.*
QUAN Changsheng
Company Secretary

Beijing, the PRC
27 April 2016
